Global Fleet Enterprise

GFleet for the 15th Asian Games 2006 in Doha, Qatar

Transportation Management Services (TMS, LLC) of Maryland, USA, was appointed the official transport manager and provider for the 15th Asian Games 2006 which was held in Doha, Qatar by the Doha Asian Games Organising Committee (DAGOC).

Faced with the daunting task of managing Qatar's national bus company, Mowasalat's, 750 coaches and 1000 drivers from two (2) depots/dispatch facilities to ferry athletes, game officials and media to various sporting venues, TMS LLC turned to **International Communications & Transportation Engineering (ICTE, LLC)** and its partner, **GT&T Engineering Pte Ltd**, for a custom transportation management system to help manage the fleet and drivers during the one and a half month Games period.

"GT&T Engineering performed incredibly in delivering a much-needed transportation services fleet management capability for the 2006 Asian Games in Doha. In just three short months, they went from a set of requirements to a superbly working system and followed with outstanding on-site support." - Mr Mark Siders, President of ICTE, LLC.

"TMS made a significant contribution to the success of the 'Games of Your Life", and displayed commitment to the highest levels of service" – Khalid Ali Abdulla Abel, Assistant Director, Games Services, Doha Asian Games Organising Committee.
